ICAP Examination Tips

COURTESY :

Sir Fahad Ahmed Hashmi

GCA Consultants

Dear ICAP Students,

Here are some useful Examination tips for you (**theory papers only**):

- Highlight complex areas of the syllabus and if they are important topics that are expected to be examined, then put in extra time for their practice
- When studying, get in the habit of beginning with the most difficult subject or task. You'll be fresh, and have more energy to take them on when you are at your best
- Make notes of important concepts and formulae and stick them on the soft board or tape them to your desk for quick revision
- Make sure that you make a list of mistakes which you made while doing practice questions. While revising, you could go through this list, and try not to repeat the same errors
- In exams jot down any points on the back of the answer sheet that come to your mind
- PRESENT THE EXAMINER WITH PARAGRAPHED MATERIAL WITH HEADINGS UNDERLINED FOR EMPHASIS
- WATCH YOUR GRAMMAR, PUNCTUATION, HANDWRITING AND SPELLING
- READ THE QUESTION SLOWLY, DELIBERATELY AND CAREFULLY REALISING THAT EVERY WORD IS IMPORTANT
- LEAVE SPACE AT THE END OF THE ANSWERS TO CATER FOR IDEAS
- AVOID IRRELEVANCE AT ALL COST, EXAMINERS WANT PERTINENT FACTS AND THEORY RELATED TO THE QUESTION
- Concentrate on the presentation of your paper. Save examiner's time, he will save your 6 months

GCA Consultants

- Stay cool and confident under pressure
- Remember that you will always forget. Therefore the final revision is imperative
- And last but not the least Pray to Almighty Allah for the success in the examination.

GOOD LUCK !!!!!
